

# Expedited Scoring Request

Our standard scoring policy ensures that results are posted to your online account at [www.setontesting.com](http://www.setontesting.com) within 2-3 weeks after Seton checks in your test materials. This regular scoring service is included with the rental of your tests.

If you need faster test results, you can request "**Expedited Scoring.**" Once Seton checks in your test(s), they will be added to the expedited scoring queue that same day. Typically, expedited IOWA test results are available within 3 business days, while TerraNova2/CAT 6 and California Achievement Test results are usually ready within 1 business day from check-in. However, please be aware that unforeseen circumstances **may** cause delays.

**\*\*You must clearly write "Expedited Scoring" on the outside of your package being sent to us. Inside your package with your returned testing materials, include this form along with your payment of \$25.00 per test being expedited. Please make the check or money order payable to Seton Testing Services if including payment.**
