

Off-Norm Scoring Request

By default, tests are scored according to the time period of the school year. We offer Fall, Winter, and Spring scoring. (Beginning of grade, middle of grade, and end of grade)

TerraNova/CAT 6 and California Achievement Tests Norming Periods

Fall: September 1 - November 30
Winter: December 1- last day of February
Spring: March 1 - August 31

Your test will automatically be scored for the period listed between the dates shown.

If you are testing outside of the regular norming period you may fill out this form to request off-season scoring. For example: Your child just completed grade 5 and you are testing your 5th grader with a 5th grade level test for an end-of-year assessment (Spring), but it is September 18 (Fall norms). You are starting the new school year in November and your child is not in grade 6 yet. You may request end-of-grade scoring (Spring norms) by returning this form with your completed tests and payment of \$15.00 per test for this service. The score results will be for the norming period you indicate below.

INVOICE NUMBER _____

Last Name _____ Zip code _____
